REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claims 1-8, 10-19 and 21-22 are allowed as amended. Applicant's amendment overcomes the prior art of record and an updated search did not result in any new prior art of record. Prior art of record neither teaches nor suggestive of a composition of matter containing specific components and the wt% of the transition metal oxidant, and a method of making a conductive polymer by the processing of specific components containing specific the wt% of the transition metal oxidant and by specific method steps.

The examiner construes the concentration of the transition metal oxidant to be more than 50wt% in the total mixture of the components based on the data in the table given in Fig-2 and Specification (Pg- 6, Ln 1-6, 09/05/2006 amended).

The amendment to the specification filed 09/05/2006 has been entered and found to contain no new matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
